Navy TechFinder

- **System is being developed based on needs identified by ONR Code 36 (Industrial and Corporate Programs Office)**
 - Provide enhanced “access” to information
 - Licensable Navy technologies
 - Naval facilities available for use
 - Navy R&D opportunities
 - Navy sponsored or supported conferences and trade shows
 - Provide avenue to submit technical inquiries
- **Designed for government, industry, and academia**
- **Will streamline the flow of technology from those who have to those who need**

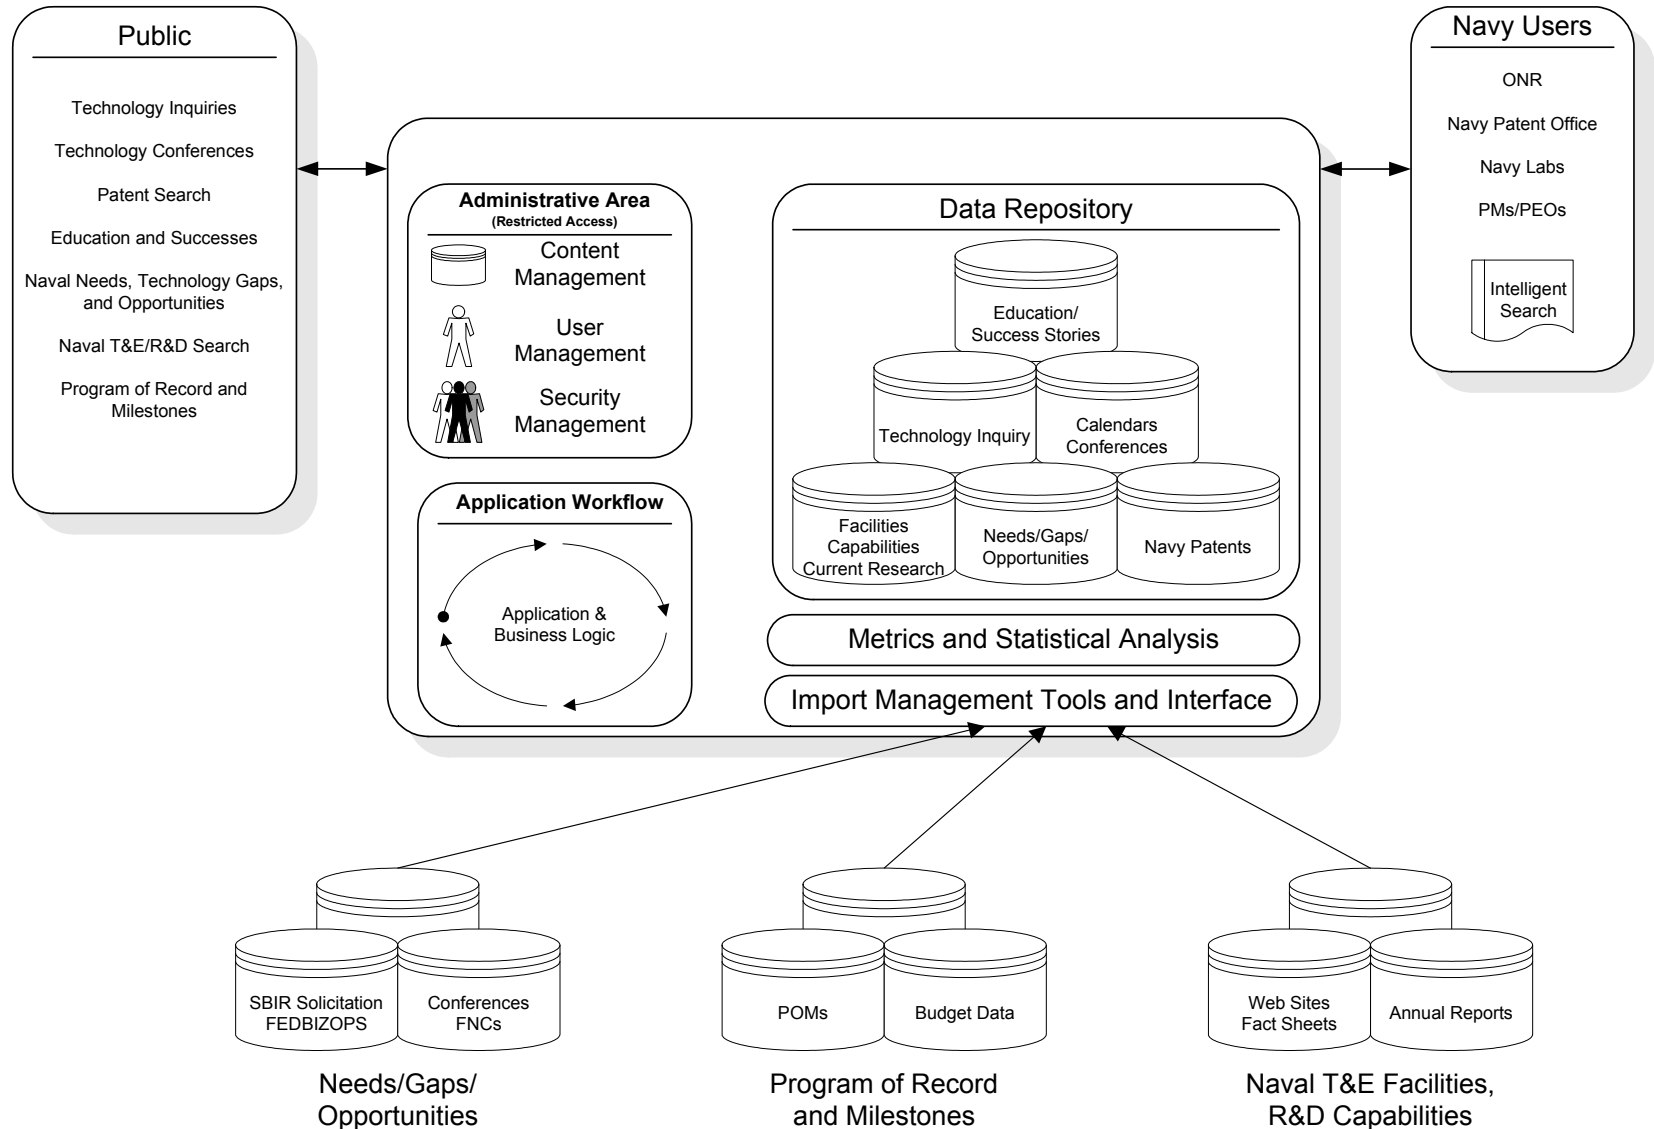

Navy TechFinder Overview

Sponsor: Office of Naval Research

- **Internet system to expedite transition of technology into and out of the Navy**
- **Web application for input from PMs/PEOs, labs, SBIR topics, patents, databases, etc.**
- **Auto-connect those who have technology with those needing technology**

Navy TechFinder Overview

- Phase I delivery September, 2003
 - www.navytechfinder.com
- Phase II delivery May, 2004

Technology Commercialization

- **INNOVA provides access to business development services required to take a new product idea from concept to market**
 - Product evaluation
 - Business planning
 - Market research analysis and strategy development
 - Small Business Incubation Center
 - Access to professional service providers, and early stage investment capital
- **Assistance activities are currently focused on West Virginia innovators**
